RED PENGUIN WEB SOLUTIONS

Spend Less Time on Your Website. More Time on Your Mission.

Full ownership, total flexibility, and one less thing on your plate.

For over 15 years, Red Penguin Web Solutions has built and maintained websites for parishes across the tri-state area. When it's time to choose — or switch — a website provider, here's what sets us apart.

1. Your Content Stays Yours

"Free" parish websites carry a hidden cost: ad-supported platforms can display inappropriate ads without warning, and diocesan-run platforms control your content, including your design, your features, even your ability to run fundraisers. With Red Penguin, your site is fully your own: your content, your design, your mission.

2. Never Locked In

We build every parish site on WordPress — the platform behind over 40% of the world's websites, backed by over 55,000 plugins. Your site can grow with you, and you're never locked into one company. If you ever want to leave, your website goes with you — it's yours, forever.

3. Your Time, Back

Every site we build is simple enough for any staff member to update — but most parishes would rather not. About 75% of our clients have us handle weekly updates (bulletins, homepage news, photos, calendars) just by emailing or texting us the changes. And 100% of our parishes call on us at some point for bigger projects, like capital campaigns or new sections — all part of your plan.

Your Investment

One-Time Setup & Design: ~~$900~~ Summer Special — $299 Set-Up Fee!

Plan	Price
Monthly — All-Inclusive	**$85 / month**
Semi-Annual (6 Months)	~~$510~~ **$425 — 1 month free!**
Annual (12 Months)	~~$1,020~~ **$850 — 2 months free!**

Need Something More?

Capital campaign microsites, online giving integration, custom event registration, multi-language pages — if you can picture it, we can build it.

Your website is often a visitor's very first impression of your parish.
Let's make sure it's a welcoming one — and that it's truly, fully yours.
