RED PENGUIN WEB SOLUTIONS

Spend Less Time on Layout. More Time on Ministry.

A polished, ready-to-print bulletin every week — without adding a thing to your to-do list.

For over 15 years, Red Penguin Web Solutions has partnered with parishes to design, build, and maintain their websites. We understand the rhythm of parish life — the deadlines, the last-minute announcements, and the need for something that looks beautiful and arrives on time, every time. Now we're offering that same dependable care for your weekly bulletin, so it's one less thing on your desk every week.

How It Works

- You send us your content — readings, announcements, Mass intentions, and events.
- We lay it out in a clean, professional template custom-designed around your parish's look and feel.
- Any empty space is filled tastefully with religious graphics, informative articles, or prayers, so every page feels complete — never empty.
- Your finished bulletin arrives ready to print, every single week — on time, without you lifting a finger.

Beyond the Basics

Need more than layout? We're happy to help with custom graphics, flyer design, or even writing articles for your bulletin. Just let us know what you have in mind, and we'll put together a simple add-on quote.

Your bulletin is one of the most-read pieces of paper your parish produces each week. Let's make sure it always looks its best — without adding one more thing to your to-do list.
